readers will not forget the sale to-day of the valuable property advertised by B. M. Eoff, consisting of warehouses, dwelling houses and lots, located in some of the most eligible parts of the city. A rare opportunity is here offered to those having the money to invest, to purchase good buildings for use or rent or good lots for building purposes. Any capitalist cannot make, we think, a better investment, nor can the laboring man, as both will derive much benefit from their investment in the way o obtaining and saving high rents.
